

Warranty

Security Chimneys™ 15-year warranty

Security Chimneys™ warrants the CTX Secure Seal™ gas vent system to be free of defects in material and manufacturing workmanship. This is a limited warranty subject to the following time periods and conditions.

Warranty period

The warranty period is 15 years from the date of installation when used for venting listed, Category II, III or IV gas heating equipment or water heaters that specify this type of venting system.

Conditions

The CTX Secure Seal warranty is subject to the following conditions:

1. The vent system is installed according to the manufacturer's written instructions.
2. The use of the vent system is limited to those appliances for which it is intended.
3. The vent system is inspected and maintained annually, beginning one year after the date of installation and continuing throughout the warranty period.

If the CTX Secure Seal gas vent system does not meet conditions of the warranty specified above, and assuming normal and proper installation, use and maintenance, the buyer shall promptly notify Security Chimneys in writing. Security Chimneys shall there upon correct any defect at its expense by replacing any defective or damaged parts of the system supplied under this contract. This obligation, however, is limited to replacement parts and does not include any responsibility or obligation with respect to the shipment, removal or installation of the replaced system or parts. The warranty period for replacement shall run from the date of the original installation of the original system.

These warranties are exclusive and in lieu of all other warranties, whether written, oral, implied or statutory. Security Chimneys makes no other expressed, implied or statutory warranties to the buyer.

The foregoing shall constitute the only remedies to the buyer for claims based on a defect in, or failure of the system or its components, whether said claims are designated as arising in contract, warranty, tort (including negligence), strict liability, indemnity or otherwise. Upon the expiration of the warranty period, all such liability shall terminate. Liabilities for special, consequential, or incidental damages are expressly excluded. Security Chimneys does not warrant the system or its components against normal wear and tear due to operation or environment.
